We Prevent Crime • Protect You

A *Better* Surrounding  
for a Better *Lifestyle*

PROTECT YOUR LOVED ONES & BELONGINGS

## ViVOS® GSM Module

- ViVOS® GSM Module links to ViVOS alarm panel and then to the user's mobile phone.
- It enables the user to control many of the functions of the system from anywhere and everywhere as long as there is mobile network connection.
- The GSM module also calls or SMS the user to inform about events happening on the system.
- This means the user can monitor and control the alarm system and lights from the mobile phone.
- ViVOS® GSM Module can also continually monitor assigned zone for the open and close activity.

### SMART FEATURES

- |                                    |  |

| 4 Full Zone open/close SMS report* | 8 System trouble reporting on personal reporting/SMS |

### Excellent Security for Swiftlet Farms

One of the most serious risks associated with swiftlet farms is the theft of their nests. Swiftlet house owners must consider the security structure and system to secure their property.

Install a ViVOS® GSM Module to ensure the best security and to avoid the invasion of thieves.
